D'autres Ã©quipements Microsoft. Note: Our codes can only be used for Microsoft products, and we will not.Q: Opening a new activity from listitem click and also passing the selected item Im trying to open a new activity from listview on click. In my activity I have a listview with items with textview and and imageView and each of the row is opened in a separate activity. I have set id in both the textview and imageview and I have set the onclicklistener in the activity level. I have get the item data also. The problem I am facing is that I am unable to pass the selected item. I know the problem is in the onclicklistener as when i click the imageview a new activity is opened but the text of the textview is not passed in the new activity. Please help me on this. Thanks in advance. The onclicklistener in Activity class: @Override protected void onItemClick(ListView l, View v, int position, long id) { // TODO Auto-generated method stub // text to be sent to the activity String id1 = (String) list.getItemAtPosition(position);
